Dear Japheth Dibo,

RE: Application For a Back-End Intern Position

Esther is currently a student at AkiraChix pursuing a Diploma in Information Technology.I am writing to express my interest in a back-end intern position at your company that I am available to start at any given time.

I have huge passion for gaming and Virtual Reality applications and would love to venture into your work environment where I will learn and explore more on how the applications are made.I have honed some of the relevant skills required in VR applications which are Python and JavaScript and look forward to exploring more as I intern at your company.

I look forward to hearing from you.Thank You.

Kind regards,
Muthoni Kamau
